

CREATING YOUR OWN CUSTOM COIN

THE SYMBOLARTS DIFFERENCE

Multiple Finishes

For a unique look, mixing gold and nickel plating brings out the detail!

Superior Enamels

We use imitation hard enamel for higher quality, more vibrant color and better durability.

Experienced Craftsmanship

Even the smallest details appear using handcrafted molding techniques. Each coin undergoes lengthy polishing to achieve the highest quality shine.

Highly Customized

Coins can be made any size or shape. We can also turn your design into a bottle opener or key chain.

Pricing Guarantee

Our Diamond Quality® coin is unmatched, therefore pricing can be higher than the competition. However, we have capabilities of manufacturing any coin for any budget which includes the exceptional SymbolArts service our customers have come to expect.

We will **BEAT** any competitor quote on an equivalent product **BY \$.10 PER COIN**. Simply provide the competing quote listing the product specifications and quantity and we'll outdo it by a dime.

Service Guarantee

Our in-house sales team has over 100 collective years selling coins. While working directly with a knowledgeable representative you will be guided from start to finish ensuring a Diamond Quality® product & experience.

SYMBOLARTS CUSTOM COINS

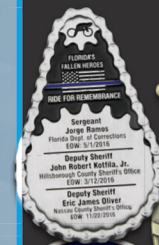

THE LEADER IN CREATING CUSTOM RECOGNITION PRODUCTS

Creating your Custom Challenge Coin is EASY! Let's Get Started:

First, email your ideas to one of our dedicated sales representatives. From there our talented artists can create compelling artwork out of almost anything!

City Hall Minneapolis, MN

Shapes, Sizes & Edges

Ask your SymbolArts representative about other ways to customize your coin like adding a unique edge, cut outs or creating your own shape and size.

Most coins are sized at 1½", 1¾" or 2" (odd sizes use 2" for pricing.)

2D ▶

2D coins are flat with some relief in the metal, typically filled with enamel or sandblasted. Great for logos and flat artwork.

3D ▶

3D coins have a raised, sculptural quality with high relief and typically no enamel fill. Usually designed from photos.

Choose from Several Different Enamels and Plating Options

Once we receive your initial ideas, our SymbolArts Representative will contact you to discuss the best plating, color and coin options for your design to stand out.

Hard, Soft and Translucent Enamels

▶ Hard Enamel

Best quality, the paint is heated at a high temperature to harden, then polished smooth & level. Very durable finish.

▶ Soft Enamel

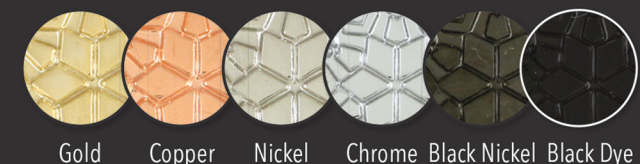

Paint is air dried, creating a dimensional look at a lower level than the metal borders. Comes in a larger variety of color options.

▶ Translucent Enamel

For a truly unique effect, give our translucent enamel a try. The added opacity gives visual depth and interest to your design.

Single-Tone Plating Options

Gold

Copper

Nickel

Chrome

Black Nickel

Black Dye

Antique Finishes

Satin Finishes

We Design the Artwork for FREE!

Our talented art department will create a custom design and with no hidden fees our artwork is free up to 3 revisions.

Time to Place Your Order

Once approved, you will decide on the amount of product you want. Lead time can depend on order quantity and design, but is typically 5-6 weeks.

Pricing Breakdown

Pricing is based on quantity, size, coloring, and finish. There are options available for all of our customers to create uniquely designed coins at any budget. We are known for our exceptional quality and attention to detail and guarantee a remarkable finished product.

3D Molds are an additional cost.

Die charges waived for all 2D coins in quantities of 300 or more.

Reordering Process

Molds are kept for 3 active years. Each order within that time frame restarts the clock. Once your stock is running low, contact us to refill your order. Reorders ship in 4-6 weeks.
